ThermoTech™

DOUBLE GLAZED

Does a good job as the standard level in double glazing for enhanced comfort and design flexibility compared to single glazing.

The ThermoTech™ range is capable of keeping your space naturally lit without increasing your energy consumption or power bills.

Characteristics:

- Increased insulation and reduced energy cost
- Suitable for hot and cold climates
- Can be incorporated with a Low E coated product for additional insulation
- Reduced condensation
- Available with aluminium spacer as standard, this product can be supplied with a warm edge thermal spacer at additional cost

Viridian ClimaTech™

DOUBLE GLAZED

Does a great job in supporting your home's comfort and natural light with budget in mind.

Low E coated double glazing provides thermal comfort and allows you to have bigger windows - for more natural light.

Benefits:

- Home comfort with better insulation
- Allows you to have bigger windows for more natural light
- Tinted options for glare reduction
- A great option for those wanting double glazing on a budget

LightBridge™

DOUBLE GLAZED

Does the best job in supporting your home's comfort and natural light.

Low E coated double glazing allows you to have bigger windows - for more natural light without the overwhelming feeling of heat or cold in the home.

Benefits:

- Home comfort with the best insulation
- More natural light with bigger windows
- Tinted options for glare reduction
- Privacy options

LightBridge next™

DOUBLE GLAZED

Does a superior job in supporting your home's thermal comfort, acoustic comfort and natural light.

Low E coated double glazing with thermal spacer and specially formulated acoustic interlayer which allows you to have bigger windows with more acoustic comfort and natural light without the overwhelming feeling of heat or cold entering the home.

Benefits:

- Superior home comfort with the best insulation
- Thermal spacer for added insulation
- More natural light with bigger windows
- Reduces noise with specially formulated acoustic technology included
- Tinted options for glare reduction
- Privacy options

VistaTech™

TRIPLE GLAZED

Does the ultimate job in supporting your home's thermal comfort, acoustic comfort and natural light.

Triple glazing three-pane technology is five times more efficient than standard double glazed units, providing the most thermally efficient residential window and door systems currently available in Australia.

Benefits:

- Ultimate home comfort with the best insulation
- Thermal spacer for added insulation
- More natural light with bigger windows
- Reduces noise without the need for an acoustic interlayer
- A range of glass options available that can provide privacy, security and energy efficiency
