

DESIGNER

DécorColour™

Laminated coloured glass

DécorColour™ is our range of laminated glass using coloured Vanceva® interlayers, providing unlimited design possibilities.

Elevate your spaces with thousands of possible colour combinations, DécorColour™ is available in a wide range of colours and a choice of transparent, translucent or opaque effects.

DécorColour™ is the ideal solution for decorative applications which require colour consistency and durability.

DécorColour™ is a UV resistant, colourfast, water resistant and Grade A laminated safety glass, making it the perfect solution for both internal and external applications requiring either a dash of colour, a subtle hue or a dramatic bold statement.

Features and Benefits

- Extensive colour library with transparent, translucent and opaque options.
- UV resistant, colourfast and water resistant.
- DécorColour™ is a laminated Grade A safety glass.

Considerations

Installation

- Glazing systems must allow for water drainage or be completely watertight to prevent laminated edges and the interlayer from long term moisture exposure.
- Certain sealants may cause edge de-lamination such as linseed oil or putty, neutral cure silicone sealants are recommended.

Applications

- A single PVB interlayer is 0.38mm thick, however when incorporating multiple interlayers for colour achievement the final thickness is commonly up to 1.52mm thick.
- For external applications, the potential solar absorbance of the coloured interlayer will commonly require the use of tempered glass components i.e. heat strengthened or toughened.

Sectors

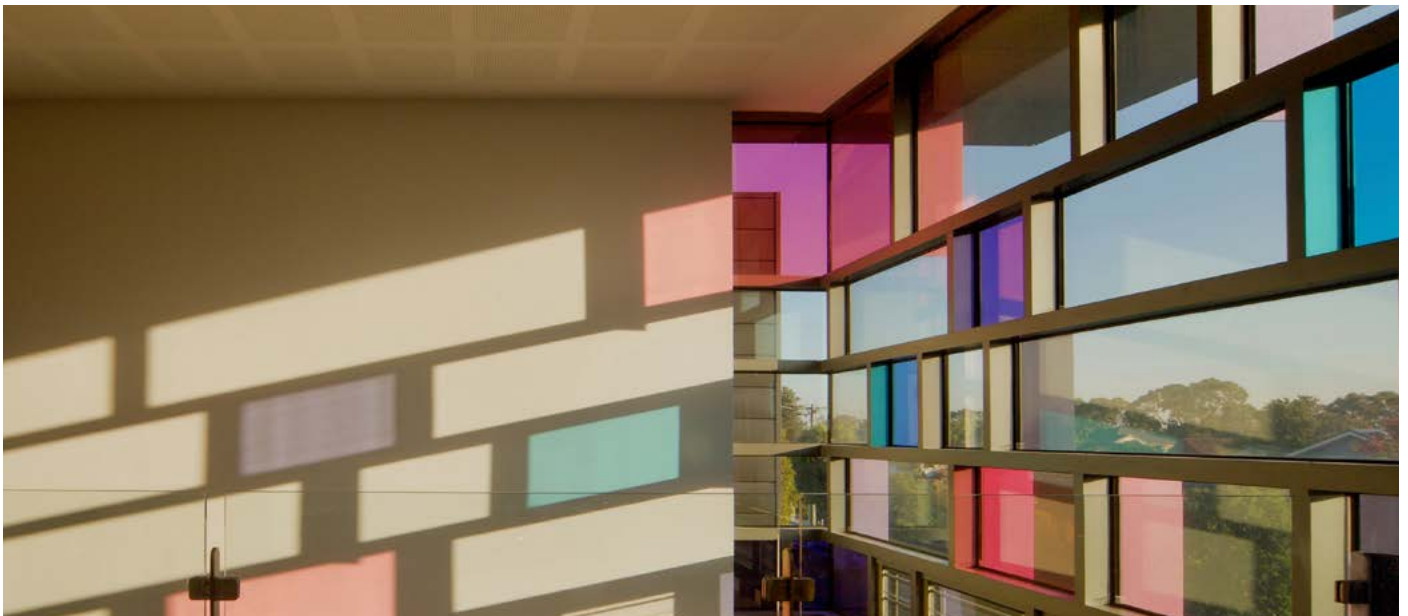

- Residential
- Commercial

Applications

- Windows
- Doors
- Balustrades
- Canopies
- Curtain Walls
- Decorative Panels
- Facades
- Lifts
- Light Wells
- Lobbies
- Partitions
- Sporting Arenas
- Staircases
- Overhead Glazing

How to Specify

- **Select glass processor**
Viridian Glass
- **Select glass name**
DécorColour™
- **Select tone & thickness**
Refer to the Vanceva® colour selector tool for all available colours and opacities.
Custom sizes available, consult Viridian.
- **Select processes**
Laminated, custom laminated and toughened laminated.
